

Prototype

“

"If a picture is worth 1000 words, a prototype is worth 1000 meetings."

Source: <https://twitter.com/markdrasutis/status/336234035305123840>

If you have a big project and some parts are still fuzzy, it's difficult for us to make a [quote](#).

Say a “back of the envelope” evaluation for a project is \$50k to \$100k. Since Tiki has so many features, we can build a prototype from existing features for 10–20% of that amount. At that point, the gaps will be clearer and we can establish priorities.
